WORK EXPERIENCE

Software Engineer

Oct 2025 – Present

Devsnest OPC · Dhaka (devsnest.net)

- Solo-built a production Shopify app (Mixory Bundles) end to end — Next.js/React frontend, Node.js backend, PostgreSQL database via Prisma — live on the Shopify App Store.
- Implemented REST API endpoints for dynamic pricing and cart-transform logic via Shopify Functions, with a strong focus on clean, debuggable code.
- Containerized local development with Docker, standardizing the development environment and reducing environment-specific setup issues.

Full Stack Developer (Frontend Lead)

Sept 2024 – July 2025

Tutorsplan Corp · Dhaka (tutorsplan.com)

- Led the frontend team on a Next.js tutor/student portal, running code reviews and managing Git branching/PR workflows across the team.
- Partnered with the backend engineer on Prisma/PostgreSQL schema design and REST API endpoints for the NestJS backend.

React/Next.js Developer

Apr 2024 – Aug 2024

Dhali Overseas Limited · Dhaka (laststop.live)

- Migrated 3 projects from Webflow to React/Next.js (flight/hotel booking sites, B2B/B2C sales portals), improving performance by 60%.
- Optimized data fetching/caching with TanStack Query, cutting page load time by 30%.

Frontend Engineer

Mar 2023 – Mar 2024

Approveage Inc · Toronto (Remote)

- Built real-time client/admin communication using Socket.IO and Firebase Cloud Messaging, supporting live data updates and push notifications.
- Optimized client-side data fetching and caching with TanStack Query, improving application response speed by 30%.
